

Applications:

Back Filling, Barge Loading, Demolition, Railways, Shaft Sinking, Stock Piling, Basement Digging.

TruckLoader has been designed to make muck away safer, easier and more efficient. Our unique patented technology allows the skip to be landed and discharged directly into tipper trucks, roll on roll off skips, barges or even onto the floor, no landing gantry required. Now, finally, your site has a viable alternative to the traditional outdated methods like boat and circular muck skips.

"No other skip can do what the Gecko Skip can."

Model	TL20	TL30	TL40	TL60	TL110	TL170
Capacity	2000ltr	3000ltr	4000ltr	6000ltr	11000ltr	17000ltr
Loading Height	1200mm	1200mm	1500mm	1600mm	1700mm	2550mm

NB: Specifications are subject to change at any time and without notice

- If you want to get your muck removed quicker.....specify a larger crane & we will provide a Gecko Skip to suit.
- We can also manufacture bespoke sizes specifically for your current site requirements.
